Little Miami Scenic Trail (Xenia to Newtown)

It is 56.4 miles from Xenia Station south to Newtown. The name of the trail is derived from the fact that it follows the Little Miami River Valley. Also known as the Bullskin Trace, the Little Miami River Valley has served as a corridor of travel for over ten thousand years. Parts of the valley predate the Wisconsin Glacier, which set the current drainage system, having been part of the now extinct Teays River System that flowed north to Fort Wayne, Indiana. This section is very shaded with an abundance of natural serenity.

It is possible to ride through Eastwood MetroPark to connect to the Mad River Bikeway and the Great Miami River Corridor Bikeway.
